# 'ROUND THE BEND

CHUCK LANGSENKAMP

It's that time of year again.

At the last meeting of the CIR Board of Directors, there were two items of the agenda that deserve special mention.

I read a letter from Lew Mooreman, National Secretary, formally approving the merger with Ramme Region and directing Ruth Harte, the Executive Secretary, to begin the member transfer process. When Ruth completes her work, the re-affiliation is complete. Again, a hearty welcome is extended to the former Ramme Folks from the CIR community with hopes that we will see many of you soon.

That leads us to the second important order of business that evening...the election of officers for 1987. For those of you who are new to our Region, the process begins with the appointment of a Nominating Committee, which is headed this year by Bob Drummond. This group develops a list of candidates that are voted upon by member attendees at the Annual Meeting, scheduled for November 8, 1986.

Under the terms of the merger, former Ramme Region and CIR members are equally eligible to run for office and to vote. I encourage you to do so, and I hope those persons interested in an office will contact Bob soon. His number is (317) 842-1999. A list of elected, appointed and volunteered positions appears on the inside front cover of the CIRcular.

All of this has had an interesting side effect on my emotions. As my second and last term as President draws to a close, two questions fill my thoughts about CIR/PCA: What was accomplished? What lies ahead?

All material for a future message.

Cheers and Press On Regardless.

*Chuck*

# ★ LET'S ★ CELEBRATE!!!

Twenty five years ago, Central Indiana Region of the Porsche Club of America became a reality...and that's something worth celebrating.

So, we're throwing a party! Our party is going to be at the Builders Concrete Office party room, 131st St. N., and State Road 37, Saturday, August 16.

The activities get underway at 4:00 p.m. with hor d'oeuvres at 5:30 p.m. and dinner about 6:30 p.m. Dinner features steaks cooked on a grill by some of the best chefs in the Region!

Our activities will include a People's Choice topside concourse and the opportunity to test drive some new Porsches. Personally, I'm going to avail myself of this opportunity simply to reaffirm my belief that air-cooled, rear engine, six cylinder is the only way to go. But you never know...the opportunity to try a water cooled, forward located engine may just change my mind!

The cost for this event is \$10 per CIR member and their affiliate member or guest. Because CIR is underwriting the cost for its members and guests, additional guests will be charged \$15.00 each. This cost includes the CIR activity fee, all food and refreshments.

Don't miss this exciting event. We're going to have a lot of fun, and you'll want to be a part of it all! Contact Bob Drummond, 317-842-1999, by August 11 if you're planning to attend so we can assure an adequate supply of refreshments.

HOOSIER AUTO SHOW  
INDIANAPOLIS MOTOR SPEEDWAY  
SEPTEMBER 19, 20, & 21

The 20th Annual Hoosier Auto Show & Swap Meet is coming up September 19-21. The event is conducted on the infield of the Indianapolis Motor Speedway.

Of particular interest to Porsche owners is the auto show portion of the event, Saturday, September 20. More than 50 automobile clubs combine to show off their cars. Last year, more than 1,000 antiques, classics, vintage racers, antique fire engines and marques from all nations were on display

Our cars may be entered for exhibit or judging. Porsche judging will be based on Parade rules. Laps around the famous 500 Motor Speedway, dash plaques, and our own dinner featuring a slide show on the history of Porsche automobiles presented by Gene Babow, renown Porsche writer and enthusiast will cap off the event.

## GUEST PROFILE

Gene Babow and slides? Big deal! Who is this Gene Babow anyway and how good can his presentation be?

Gene Babow is from Daly City, California. He is a contemporary, antique car appraiser and free lance writer, often contributing articles to the Porsche Panorama.

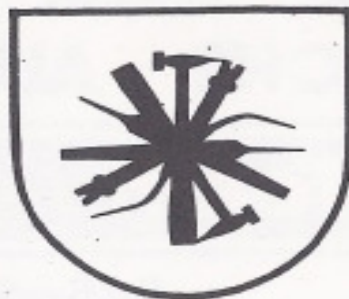

Babow has travelled extensively, here and abroad, visiting automobile museums there with frequent visits to the Porsche factory. Besides the Pano, Babow's work appears regularly in a variety of national automotive magazines.

His audio/visual presentation on the history of Porsche should be the highlight of the Auto Show weekend...a presentation you won't want to miss!

### *The Master Craftsman*

## Winery Tour Update

Well, last month we asked for your input regarding the date of our annual Winery Tour. We were considering moving the day to Saturday instead of Sunday to improve participation by eliminating a long drive on a work night.

And, according to your response, Saturday, October 11 it is! By moving the day to Saturday, we will be giving our participants the option of returning Saturday night after the Winery Tour or the Oktober Fest event put on by the Kentucky Region, or they can stay overnight in Kentucky and return home Sunday morning.

Details of this combined event with Kentucky will be available in the next issue of the Circular. Make your plans now to attend this event. It's a lot of fun and this year's change should make it event better!

# OUR DAY ON

Camp Koronis is a church camp more commonly referred to as a young lad attending this camp. It's a first experience with a Houseboat.

So, you can imagine how exciting it was to have a Houseboat weekend. This was another opportunity to be a part of the fun.

After our rendezvous in Bloomington, we docked on the bay where we waited for a pair of wonderful speedboats. The Houseboat, anchored in a quiet spot on the lake.

It didn't stay quiet long. We started to and let the party begin.

We spent the day inner-tubing, telling tall tales, soaking in the sun, and enjoying the afternoon.

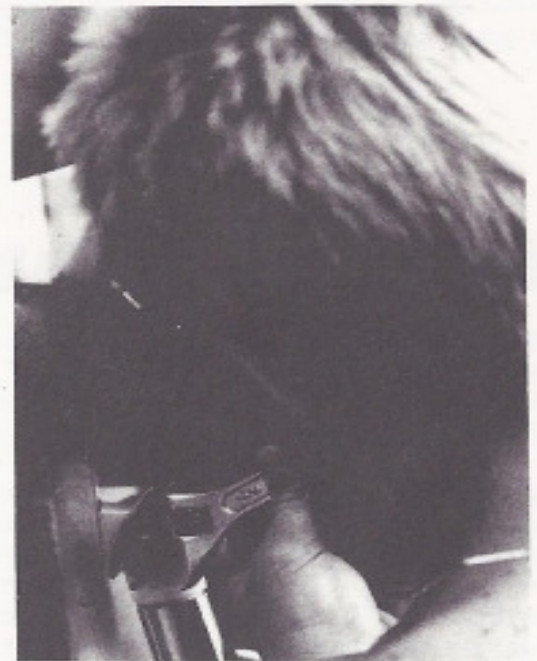

The whole day ended much too soon. We can hardly wait for next year!

Wayne Johanning takes a dip in the lake while two of Bob's friends enjoy lunch on the rocks!

Sittin' on the dock of the lake while Wayne tells us about the one that got away.

Jason's quick fix on the antennae put us back in touch with the home base.

# THE LAKE

up in the Great White North...  
Minnesota. Many years ago as  
camp with my family, I had my  
boat. Man, I had a ball!

Captain Bob and  
Navigator chart our  
course.

Chuck Langsenkamp catches up on  
the morning's overdue reading.

# Election Selection

Yes, folks, it's that time of year again when we go out into the streets soliciting our membership for those persons who are excited about CIR and interested in its future.

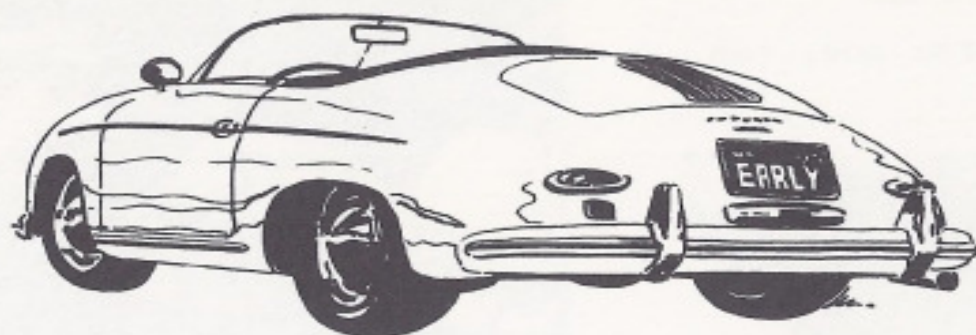

Those are the people we want serving on our Board of Directors...those are the people we are looking for right now.

Bob Drummond is in charge of this year's nominating committee. He is being aided by Mark Thompson, who NEVER takes NO for an answer.

So, spare yourself. Call Bob Drummond and let him know what office you're interested in running for. Don't wait for him to call you, cuz if he doesn't get the answer he's looking for, he'll call Mark!

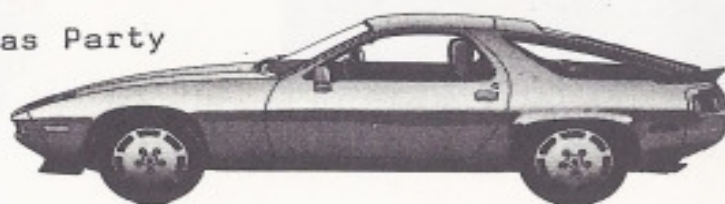

Bob's telephone number is 317-842-1999. Mark can be reached at 317-849-8037. The following is a brief description of the elected offices. Each office is a one year term.

---

## CIR 1986 Calendar of Events

August 3	Solo with SCCA
August 3-10	Porsche Parade, Portland, Maine
August 16	CIR 25th Anniversary Party (Whoopee)
September 7	Solo with SCCA
September 20-21	Hoosier Auto Show
October 11	Winery/Color Tour, Kentucky Region Oktoberfest
November 2	Solo with SCCA (Fun Solo)
November 8	Annual Dinner
December 7	Merry Christmas Party

## PRESIDENT

The President presides at all meetings of the membership and the Board of Directors and performs the duties usually pertaining to this office.

## VICE PRESIDENT

The Vice President shall assist the President in the administration of the Region's affairs and perform other duties as may be assigned by the President. The Vice President shall also assume the duties of the President in the President's absence.

## SECRETARY

The Secretary attends all meetings of the membership and Board of Directors and keeps full and complete minutes of the proceedings and votes. The Secretary insures the publishing to all members, notices of all matters to the proper conduct of the Region.

## TREASURER

The Treasurer shall have custody of all monies, debts, obligations and assets belonging to the Region. The Treasurer receives all Regional monies and deposits them in the Region's bank account. The Treasurer has direct control over the supervision of all Regional assets and of payments of Regional debts and obligations. Additionally, the Treasurer is responsible for a financial statement at any annual meetings, updates at regular Board meetings and for maintaining a set of double entry books of account reflecting the financial status of all receipts, disbursements, balances, assets, and liabilities of the Region.

## ACTIVITIES CHAIRMAN

The Activities Chairman organizes the Region's competitive, technical and social events. This person may appoint committee members to help in completing the arrangements for the various events.

## MEMBERSHIP CHAIRMAN

The Membership Chairman processes all applications for new membership and coordinates new member activation programs as necessary.

# TECH TIPS

by Jim Farmer/Giganti VW, Porsche & Audi

## 944 BELTS

Since it's introduction in 1983, the Porsche 944 engine has been equipped with a unique drive belt system consisting of two toothed belts. One of these belts is toothed on both sides. This system was necessary because of the overhead camshaft and two balance shafts used on the 944.

In the past we have found the belts to be fairly reliable, with two exceptions. First, is proper adjustment and second is oil being allowed to get onto the belts.

Adjustment of these belts is very critical. The factory recommended interval is at least every 15,000 miles. Proper adjustment can be achieved only when the engine is absolutely cold, and using only special tool number 9201, No Exceptions!! Although I cannot say that improperly adjusted belts always lead to disaster, I can say that several 944 owners have suffered severe engine damage due to the lack of maintenance or improper adjustment of the camshaft and/or balance shaft drive belts. Because of the design and the materials used, it is virtually impossible to adjust these belts by "feel".

Oil usually gets onto the belts from a leak on the front of the engine. Oil leaks in this area usually come from three sources. The front crankshaft seal, the balance shaft seals, or the oil pump mounting bolts. If oil is allowed to get onto the belts, it will deteriorate the belt material in a short period of time. This causes the belts to stretch severely and in many cases, the teeth will actually shear off of the belt. A sure sign of trouble is if you can see signs of oil leakage on the extreme lower portion of the plastic belt shrouding at the front of the engine.

Finally, just this week our field representative from Porsche Cars North America informed us that PCNA is now recommending that we advise our customers to replace both belts every 30,000 miles. Because of the potential damage that can occur from a broken or improperly adjusted belt, I think it is money well spent.
