March 2012 CIRPCA President's Message

Welcome to "almost" Spring everyone! Spring arrives officially on March 20th in this year of "almost" no winter.

I hope many of you have been able to take advantage of the warmer than normal temps and have exercised your Porsche. My 912E is going out for a romp today as a matter of fact.

Speaking of a good romp, it's time to be thinking of our Spring Brake Drivers Ed. We will once again be at our home track of Putnam Park Road Course over the last weekend in April. Good times will be had by all whether you are driving, instructing, or just come out to hang with everyone.

I spent a couple of days at the Sebring International Raceway this past month watching the 48 hours of Sebring. This is an annual PCA event that is comprised of PCA Club Racing, Drivers Ed, and Autocross all over a 4-day period. I learned a bit from our Florida PCA brothers and sisters about running a number of events at the same time. And as I went with a friend who has never been on any track before, I got to see his excitement as we did lunch time touring. He had a blast!!!

For my big news of the month, our little happy group here at CIR-PCA will be hosting the Porsche Corral at the Indianapolis Motor Speedway for the Grand-Am race day in conjunction with the Brickyard 400. The Grand-Am races will be held on Friday, July 27th. This will give us the chance to shine on the national PCA stage as we will be welcoming our Porsche friends from all over the country!!!

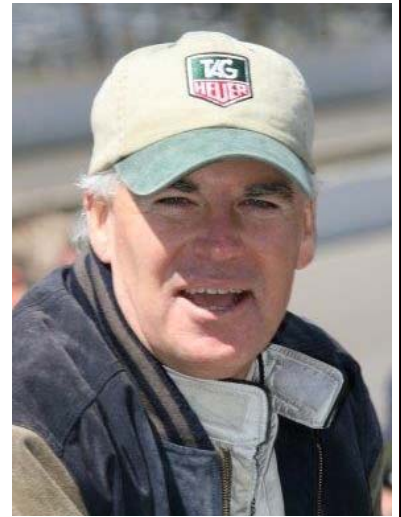

Our events list is a little light this month so everyone can get their cars perfect for April. But as usual we make time to eat and now we are making

time to give back to our community.

We will be having our First Saturday Breakfast at the Roost in Fishers. This is located at 116th and Allisonville Road. 9:00 AM as usual. Our Second Saturday Breakfast will be at the Sun Rise Cafe' located at 10230 Cold Water Road in Fort Wayne. 9:00 AM also.

On Sunday the 18th, Debbie Groulik is organizing the "Bowl for Kids Sake" at the Thunder Bowl in Fort Wayne. This is a fun event that is raising dollars for the Big Brothers Big Sisters. Please go to our website to sign-up and make your team. This is a great cause, and great fun at the same time. If you need help, there is a link to Debbie and she will be glad to assist you.

That's all the time I have now, gotta' go drive!!!

In The Zone

By Ron Carr
Zone 4 Representative

It was great to meet so many of you at the Detroit Auto Show in January- we had 84 members attend as a group and hear the presentation on the new 911 (type 991). If you missed this show, check out your local Porsche dealership- they probably have scheduled an introduction of the new 911 (model launch), and would be happy to have you stop in.

The other big news is the announcement of PCA Parade 2013- it will be in our own Zone 4, in Traverse City, MI (Western Michigan Region) in June. Stay tuned for more details, and consider attending and helping out. Check your local region's website and newsletter for the latest details on other events close to you, and check the Zone 4 Website for other regions events.

Merritt Webb

It has been a mild winter and Spring is quickly approaching. I hope you are signing up for the Putnam Park DE. I am signed up, and have rented a garage. It seems like a great deal, and I think it will add a lot of comfort to the day.

I have some Autocross experience and I have enjoyed that greatly. I went to the DE Orientation at O'Daniels, and it was a great event with a lot of great information. I have spoken to several people about track days versus autocross. Some tell me they are similar, some say they are quite different. Well, the best

way to find out seemed to be to do them both. So, I am really looking forward to the DE.

I have had a few members ask me about Autocross. I encouraged them to also give that a try. So this month I thought I would pass along the Autocross schedules for the Indianapolis Region SCCA and the Fort Wayne Region SCCA.

Many of the Fort Wayne and Indianapolis event take place at the Grissom Aeroplex. In fact the course is right next to the old Crew Readiness alert facility Southeast of the current airfield tower. This is the facility that crews would scramble to their bombers.

Here is some more info: <http://www.loc.gov/pictures/item/in0453/>

And there are other sites as shown. Autocross is a lot of fun and you get a chance to see how your driving and car matches up against some other makes and models. So, I hope I will see you at the DE and at some Solo events!

Porsche Prices Hit the Wall in Scottsdale...Sort of — Rob Sass

In Pebble Beach and before, Porsche prices seemed to be on fire everywhere. 356s, long hood (pre-1974) 911s (particularly the S model) and even short wheelbase 912s were in great demand and bringing huge prices.

Even so, when the catalogs came out for the Scottsdale sales, I audibly gasped. A \$300,000+ pre-sale estimate for a pushrod Speedster, \$100,000+ 356 coupes and \$100,000+ estimates for non-S early 911s. The killer for me was a \$65,000 to \$85,000 estimate for the lowest horsepower version, the 911T in the wrong shade of yellow at RM.

For the most part, the 356s did quite well with RM setting a new record for a pushrod Speedster at \$330,000. Only Bonhams 356SC coupe failed to sell and this after being bid to a very strong \$80,000.

The 911 market was a different story and at this point, the confusing alphabet soup of 911 models bears explaining: The 911S was the top horsepower car from 1969-73. The E was the middle-range and the T had the base engine. Not surprisingly, this is also the order of desirability.

**1978 911
Coupe from
movie "Gone in
60 Seconds"
sold for
\$38,500**

With the supply of early S model cars seemingly running out, a number of well-restored T and E model cars have appeared at auction.

For now, the early 911 market seems to be taking a breather with early S cars the only models that can be reliably counted on the break \$100,000 when condition warrants. All things considered though, any pre-1974 911 in good condition— especially in a popular period color like Conda Green, Light Yellow or Signal Orange— is worth holding at this point..

Gift Idea! - Replica Grand Prix Race Car Hood Panel Art - Merritt Webb

What do you get for the person who has everything? When I pick a gift out I try to select something that a person would really like, but would never buy for themselves. I try to get something that they will connect with as well.

Here is a unique conversation piece for the true automobile or motor sport enthusiast. Make a statement in an office, garage, home or showroom. This will not go unnoticed. This piece of art resembles an early open wheel grand prix race car engine cover.

The panel is inspired by such greats as Ferrari, Alfa Romeo, Auto Union, Bugatti, Maserati, Fiat, and many others.

The panel measures roughly 22" X 27". It is entirely hand-made just like the original automotive legends were. The light gauge aluminum is hand formed and each and every louver is hand pressed. The entire panel is primed and hand painted and then tastefully distressed to simulate race history and 50-70 years of patina. Cost ranges from \$220 to \$299, depending on model.

As previously mentioned these panels are entirely hand-made and each one is unique. The process of producing these panels is undertaken by artist and automobile enthusiast Darren Hall of European Sports Car Preservation Society, Inc. There are multiple panels available from makes and models such as: Ferrari, Alfa Romeo, Porsche, Auto Union, Bugatti, Maserati, Fiat, Peugeot, as well as some others.

If you would like to buy one or more of these hand-made panels you can contact: Darren Hall (406-471-5883); email: ffsportscarmg@hotmail.com

Shipping is \$30.00 per panel unless there is an order of 3 or more.

Hey Ho, Let's Go! - Debbie Groulik

When you read 'Performance Driver Education', do your eyes just skip over the article & think 'men only'? Well, I'm here to tell you, there's something else... Yes, a DE is a family event!

There is a true thrill watching your loved one enjoy the adrenalin rush of driving his beloved Porsche safely at speed around the track. Lunchtime track tours are offered to all ages, driven at a moderate speed. Pick out your favorite car and ask for a ride along or experience the excitement of your loved one showing you "the line".

You can bring a picnic lunch, but I suggest enjoying lunch available at the track. Tasty grilled burgers & hot dogs, pulled pork sandwiches and homemade potato salad, something to satisfy any appetite.

Putnam Park is a beautiful location to spend the day or weekend, the facilities are clean and well maintained. The host hotel is a great location,

with an indoor pool & restaurant AND I've recently found excellent shopping in the immediate area J The

Friday and Saturday evening dinners are also family friendly, and conversations range from 'car talk' to many other subjects.

The camaraderie that the drivers enjoy extends to meeting their families. You'll meet many interesting people and are guaranteed to come away with new friends.

Porsche Tech Tips - George Barker

One of the most useful and unique benefits of being a CIRPCA member is the PCA websites Tech Q&A section.

"Welcome to PCA's source of expert advice, where our [PCA National Technical Committee experts](#) answer your questions about all things technical".

If you are not familiar with this area you need to give it a try. After you log into the PCA website www.pca.org "click" the Tech Q&A tab. You will then have the option to search, ask a question or see recent answers and if you use the search option you can seek information on specific models and specific problems. For example, if you want to know what brake pads to use on your 993 and how to install them, the answer is there. The depth of information available is almost limitless and the advice you will get is from Porsche experts.

Note: I bet when the Betty does some wrenching on her tuner Panamera she gets her advice from the PCA tech tips!

Adopt a Highway - 14 April

(Submitted by David Weaver)

Join us for another CIR activity to make our community a better place in which to live. Help make the driving experience even better by providing a better environment in which to enjoy our incredible autos. What could better than driving our P-cars on a beautiful Indiana highway?

We'll meet at the northwest corner of the 5th 3rd Bank parking lot to sign waivers and make assignments. The 5th 3rd Bank is located on the west side of Meridian street and on the south side of 116th.

Wear old, weather appropriate clothes, heavy duty gloves and heavy duty boots (sometimes the grass is wet). You might also want to bring a cell phone, in case we split into two groups. INDOT supplies work signs, supplies safety vests and the heavy duty trash bags. Afterward, reward yourself with one of the best sandwiches in the city at Bellacinos Pizzas and Grinders.

Please contact David Weaver if you have any questions.

Please watch this video. It is a requirement of INDOT. (http://www.youtube.com/watch?v=5PfSe6IBbQ&feature=player_embedded#!)

It explains some very important highway cleanup safety features.

CIRPCA Online Photo Album

The CIRPCA now has two photo album lists. The first list of photos albums displays images of CIRPCA events. We've added a second set of albums listing members Porsches. You can view current members Porsches now by clicking on the "CIR Member Car Photos" under the "CIR Photos" menu tab. We'd love to display images of all members Porsches. Please contact the webmaster at cirpca.webmaster@gmail.com to make arrangements.

2013 Parade Needs You! (submitted by Ron Carr)

It's officially unofficial!! The 2013 Porsche Parade returns to Traverse City after 24 years! The event will run from June 23-June 29, 2013, and our host hotel will be the Grand Traverse Resort. This was also the site for the 1989 Parade hosted by the Southeast Michigan Region, and it's time for a return to our Great Lake state. So why officially unofficial you ask? The public announcement won't be made until the end of the 2012 Parade in Salt Lake City. But we're getting the word out locally, because—we need YOU!

We have a National Parade Chair: Susan Brown, who guides this team. Many of the event chairs hold their positions for multiple years, becoming experts in running their event. There are about 40 volunteer chairs, living around the country, who work throughout the year. But, each year we ask the locals to step up and organize the events which make each Parade unique and memorable for the entrants. They organize driving tours, trips to local attractions, and in general put the local stamp on the Parade. It will be up to all of us in Michigan and our friends from Zone 4 to enable that in many ways.

Parade is the premier PCA event of the year. Particularly if you are a Parade novice, we would like to encourage you to join us for the 2012 Parade in Salt Lake City, UT to get a feel for what the event is about. Registration opens March 13th for the July 8 – July 14, 2012 Parade. So, why not try it out? Besides joining in the competitive events, there will be many fantastic driving tours through the Utah mountain ranges. You will also have the opportunity to volunteer while at Parade, which is a great way to learn how Parade works behind the scenes.

The return of Parade is an exciting success for our region/zone and our beautiful state. We know you share our interest in making fond memories for those who attend, and we hope you will help us make the best Parade ever! Lots more information will follow, but for now – consider Salt Lake in your summer planning! If you are interested in participation please contact Amber Door at amdoor242@aol.com or 616-340-0971.

Garage Progress at Putnam Park

Putnam Park is making excellent progress with their garages. The floor has been poured. You can see where the walk-thru doors and roll-up doors will be. There is electric, overhead lighting, and ceiling fans.

I have rented one and I am sure they will make the DE experience that much better!

Putnam Park does have a Facebook page and there are pictures of the garage progress. Here is the Facebook link:

Below are a few pictures of the garage construction effort from late February. You see from the pictures that this is very solid construction and will be a great place to make any adjustments you need to your car.

ALMS winter test in Sebring: Racetrack debut for new 911 GT3 RSR

Porsche customer teams are right on schedule in their preparation for the season-opener of the American Le Mans Series at Sebring (14 – 17 March). At the test debut on the challenging concrete circuit in Sebring, drivers were unanimous in their praise for the handling of the new 911 GT3 RSR. "We are able to carry a lot more momentum through the fast corners," said works driver Patrick Long enthusiastically. "The new RSR has much less understeer at the front axle and feels stiffer and altogether more balanced," added his factory pilot colleague Marco Holzer.
